Whitney,

The decision to collect trash the way we do was decided upon long ago. Our trucks and other equipment associated with trash collection is now worn out and in need of replacement.

Currently, we have a citizen committee looking into our alternatives and the costs. They have been at it for a couple of months. We are eagerly awaiting their recommendation. I don't know the time table. Stay tuned.

Mary Dunbar

**Subject:** Trash Bins

Because Councilman Seren did not respond to my email from several months ago, I'm resending this email to everyone.

I bought a house in Cleveland Heights last October. Little did I know that come trash day, I would have to drag our trash to the lawn instead of taking a bin to the end of the driveway like normal civilized people. I am not from here, nor am I from Ohio. What a filthy surprise I had. I have now spent eight months dragging trash to the lawn, and eight months cleaning up trash that gets dragged around by animals and the wind. It's disgusting. It's disgusting driving up and down Cleveland Heights seeing trash all over the side of the roads throughout the area. It's filthy and it makes us look like trash ourselves. What can we do to bring Cleveland Heights to the 21st century and put our trash in bins? It's ridiculous that I can go down the street five minutes away and see other people being able to put their trash in bins, yet I have to live like poor white trash. Where are my tax dollars going? My taxes are about as high as my mortgage. I want trash bins!
